DETAILED ACTION

Claims 19-32 are pending in the application.

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 19, drawn to a composition comprising a *mycobacterium* DNA (M-DNA).

Group II, claim(s) 20, drawn to a composition comprising a *mycobacterium* cell wall.

Group III, claim(s) 21-23, drawn to a composition comprising a *mycobacterium* DNA (M-DNA) and cell wall (MCC).

Group IV, claim(s) 24, 27 and 30, drawn to a method of treating cancer comprising administering a composition comprising a *mycobacterium* DNA (M-DNA).

Group V, claim(s) 25, 28 and 31, drawn to a method of treating cancer comprising administering a composition comprising a *mycobacterium* cell wall (MCC).

Group VI, claim(s) 26, 29 and 32, drawn to a method of treating cancer comprising administering a composition comprising a *mycobacterium* DNA (M-DNA) and cell wall (MCC).

The inventions listed as Groups I-VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The groups are related because each group encompasses fractionated *mycobacterium* (i.e. DNA or cell wall fractions) in a composition for chemotherapeutic use. However, it was known in the art at the time of filing that fractions of

Art Unit: 1635

mycobacterium could be useful in treating tumors (see Shimada et al., The Journal of The National Cancer Institute, March 1985, 74 (3) 681-8, cited as an "X" reference in the published International Search Report). Therefore, no special technical feature links the Inventions and restriction is proper.

2. A telephone call was made to John McDonald on January 31, 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to J. Eric Angell whose telephone number is (703) 605-1165. The examiner can normally be reached on M-F (8:00-4:30).
